

Part 2 A2 Questions

20 Energetics 2

21 Kinetics 2

22 Equilibrium 2

23 Periodic trends in reactivity

24 The Transition Elements

25 Shapes of organic molecules

26 Arenes

27 Reactions of aldehydes and ketones

28 Carboxylic acids

29 Reactions of amines and amides

30 Synthetic pathways

31 Polymerization

32 Testing for functional groups

33 Modern analytical techniques
