

**Singapore 2nd Grade Math Worksheet: 4**  
**Multiplication and Division by 2 and 3**

**Name:** \_\_\_\_\_

**Date:** \_\_\_\_\_

**Math Word Problem 1**

When Abdul the Arab was bathing his camels, he found that they had too many fleas on them. He took out his shotgun and shot his poor camels for he hated fleas. He then went to a bazaar and bought 2 camels each from 3 vendors. How many new camels does he have now?

**Math Word Problem 2**

My sister went frog hunting in a forest. When she came back home, she had 3 boxes with 6 cute frogs each inside. How many frogs did she catch?
