

# Math Minutes

Adding 3-digit Numbers with Base Ten Blocks

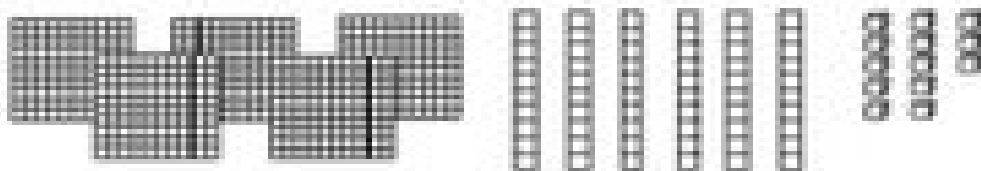

$$345 + 228 = \underline{\quad}$$

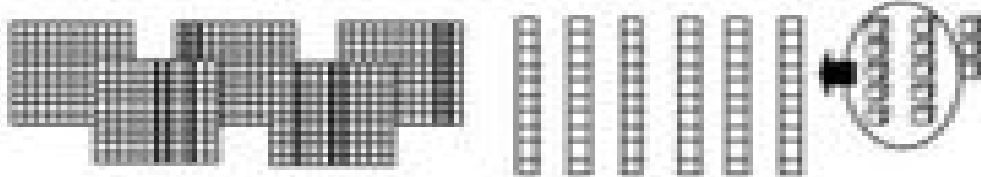

1. Model your first addend.

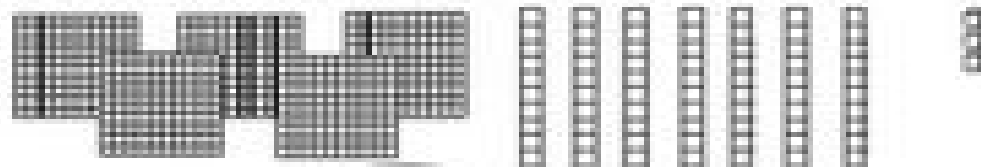

2. Add your second addend to the first model.

3. Do you have enough ones to make another ten? If so, regroup them.

4. You have just modeled your sum!

$$345 + 228 = 573$$
