DIVISION WORD PROBLEMS

Solve the word problems relating to the situation below.

1) Avery is preparing for her upcoming birthday party.

a) The mini cupcakes Avery orders come in packs of 6. If Avery needs 48 mini cupcakes, how many packs does Avery need to buy?

b) Avery plans a painting activity for the party. She sets up 4 tables and buys 80 paintbrushes. How many paintbrushes can she put on each table?

c) Avery puts together goody bags for guests to take home for the party. She buys 150 candies and puts 15 candies in a bag. How many bags can Avery make?

2) Oswaldo, Gleyber, Anthony, and DJ got together on Sunday afternoon to make homemade snacks and watch baseball games on television.

a) Gleyber made 51 pretzels. If he shares them equally amongst himself, Oswaldo, Anthony, and DJ, how many pretzels will each person receive? Will there be any pretzels left over?

b) DJ made enough iced tea to fill ten cups. If he serves ice tea to his mother, his father, and his three friends equally, how many cups of iced tea will each person get?
