

Multiplication is repeated addition. The first number tells you how many groups to make, the second number tells you how many objects are in each group. You then count the number of objects to find the answer.

$2 \times 3 = 6$ is the same as $3 + 3 = 6$

Multiply	Picture	Add
$3 \times 6 =$	  	
		$9 + 9 =$
$4 \times 6 =$	 	
		$5 + 5 + 5 + 5 + 5 =$
$3 \times 3 =$	    	
		$6 + 6 =$
