

Magic "E" Story: Dave's Bike Ride

Dave rode his white bike down Riverside slope. He was going for the first and it was very smooth. So, he put on his front brake. This was a bad mistake as the front wheel locked and he spun over the handlebar. He landed face first among some stones. He was quite dazed and for a moment he didn't know where he was.

A friend named Steve passed by on a moped and it arrived first. At the hospital they told Dave he had a broken nose and they gave him five ice packs to reduce the swelling.

Dave's Mom picked him up from the hospital and drove him home. "You had a lucky escape," she said. "You need to be much more careful in the future!" They went inside and Dave chose to put on his knee pads and take a long nap.
