

Repeated addition

Add or Multiply. You repeat addition when you multiply.

For example : $2 \times 4 = 8$, $2 + 2 + 2 + 2 = 8$

a. $3 \times 3 = 9$

$\square + \square + \square = \square$

b. $4 \times 3 = 12$

$\square + \square + \square = \square$

c. $8 \times 5 = 40$

$\square + \square + \square + \square + \square = \square$

d. $6 \times 4 = 24$

$\square + \square + \square + \square = \square$

e. $4 \times 4 = 16$

$\square + \square + \square + \square = \square$

f. $2 \times 8 = 16$

$\square + \square + \square + \square + \square + \square + \square + \square = \square$

g. $5 \times 6 = 30$

$\square + \square + \square + \square + \square + \square = \square$
