Test - List which test taken, A, B, C, etc.

Score - how many finished, so if you finished 90 out of the 100 problems, you would record 90/100. If you finished all, record 100/100.

Min - how many minutes out of the allotted time. So if you took a 5 minute timed test, and you finished all in 3 minutes, you would record 3/5. If you didn't finish, just record the type of timed test, 3min, 5min, etc.
