

# VOLCANO MINI BOOK

Decorate with Crayola® Colored Pencils. Cut out the book and fold along the dotted lines. Staple shut.

 <p>Magma Chamber</p> <p>Land</p> <p>Volcano</p> <p>Magma</p>	 <p>Magma Chamber</p> <p>Land</p> <p>Volcano</p>
<p>Fold Second</p>	
<p>The volcano erupts when the magma spills out of the volcano. The magma then becomes lava and hardens, which builds the volcano.</p>  <p>Volcano</p> <p>Land</p> <p>Magma Chamber</p> <p>Magma</p>	<p>A volcano is a large mountain with an opening at the top. Underneath the volcano the ground is a chamber where magma is held. Magma is hot liquid from the earth's center.</p> <p>Fold First</p> <div style="border: 2px solid black; border-radius: 50%; padding: 20px; text-align: center;"> <h2>HOW A VOLCANO ERUPTS</h2> </div>
