

1) The quotient of y and -8	2) The product of negative three and b	3) The quotient of x and 3	4) Two less than three times a number
5) The product of a number, w , and -8	6) the quotient of m and 5	7) the quotient of 4 and c	8) Divide the product of 3 and x by 2
9) Double n and add four	10) the sum of a number, k , and negative 8	11) Five more than p	12) negative three and f
13) four less than the number, p	14) two less than twice f	15) twice a number, n	16) three times y
17) the difference of p and 5	18) a number, t , decreased by three	19) the difference of v and negative three	20) the quotient of a number, b , and five
21) four more than m	22) the sum of negative eight and h	23) the difference between d and three	24) Two decreased by a number, c
