

**Instructions:** Now that you have seen a presentation of the butterfly life cycle, answer the following questions. You may quietly work with your neighbors.

1.) What is the very first stage of a butterfly's life? What does it look like?

2.) What are the five stages of a butterfly's life?

3.) What do caterpillars eat? What is it called?

4.) What does a caterpillar look like?

5.) What is it called when a caterpillar changes into a butterfly?

6.) What does a butterfly look like? How does it change into a butterfly?

7.) What are some characteristics of a butterfly?
