### Subtracting Mixed Numbers

The image shows a worksheet titled "Subtracting Mixed Numbers" with a light blue header. Below the title, there are several mathematical problems involving mixed numbers and fractions. The problems are:

- $5\frac{1}{2} - 2\frac{1}{4} = 3\frac{1}{4}$
- $4\frac{1}{2} - 1\frac{3}{4} = 3\frac{1}{4}$
- $5\frac{1}{2} - 9\frac{1}{4} = 5\frac{1}{4}$
- $5\frac{1}{2} - 4\frac{3}{4} = 1\frac{1}{4}$
- $10\frac{1}{2} - 4\frac{3}{4} = 6\frac{1}{4}$

There are also some faint, partially obscured equations on the right side of the page, including:

- $2\frac{1}{2} - 1\frac{3}{4} = 1\frac{1}{4}$
- $3\frac{1}{2} - 1\frac{3}{4} = 2\frac{1}{4}$
