

Name: _____ Date: _____

Jump Rope Line Graph

A student jumped rope for one minute each day of the week and recorded the results on the data table below.

Days of the Week	Day Number	Jumps/Min.
Monday	1	70
Tuesday	2	99
Wednesday	3	120
Thursday	4	125
Friday	5	118
Saturday	6	105
Sunday	7	117

Use the data table to graph each day of the week. Then, use your graph in order to answer the following questions:

1. What was the average number of jumps for the entire week?
2. On which day of the week did the student jump the most?
3. On what day did the student jump the least?
4. What was the average amount of jumps for Friday and Saturday?
