Line Graph (Jump Rope)

A group of students jumped rope for one minute individually. Use the data table to graph each of the students' results, then use the graph in order to answer the questions below.

Student Name	Student Number	Jumps/Min.
John	1	85
Pat	2	55
Sue	3	70
Tyler	4	88
Jake	5	100
Lee	6	90
Sam	7	117
Alex	8	112
David	9	120
Beth	10	118

1. Who jumped rope the most in one minute?
2. Who jumped the least in one minute?
3. What was the average amount of jumps recorded in one minute for John, Pat, Sue and Tyler?
4. What was the average number of jumps recorded for the entire class?
5. Who had more jumps per minute Jake or Lee?
6. What is the average of both Alex, David and Beth's jumps per minute?
