

### Integers Review Worksheet

---

Add integers with the SAME sign.

|                      |                      |                               |
|----------------------|----------------------|-------------------------------|
| 1) $1 + 2 =$         | 2) $10 + 10 =$       | 3) $7 + 17 + 3 =$             |
| 4) $100 + 50 + 11 =$ | 5) $25 + 11 + 5 =$   | 6) $33 + 77 =$                |
| 7) $(-1) + (-2) =$   | 8) $(-10) + (-20) =$ | 9) $(-100) + (-75) =$         |
| 10) $50 + 75 =$      | 11) $25 + 75 + 20 =$ | 12) $(-10) + (-20) + (-40) =$ |

Add integers with DIFFERENT signs.

|                        |                          |                          |
|------------------------|--------------------------|--------------------------|
| 1) $11 + (-2) =$       | 2) $10 + (-10) =$        | 3) $7 + (-17) =$         |
| 4) $100 + (-50) =$     | 5) $25 + (-11) =$        | 6) $33 + (-77) =$        |
| 7) $(-1) + (2) =$      | 8) $(-10) + (20) =$      | 9) $(-13) + 33 =$        |
| 10) $(-17) + 17 =$     | 11) $(-25) + 10 =$       | 12) $(-45) + 30 =$       |
| 13) $3 + (-4) + 5 =$   | 14) $(-5) + 4 + (-7) =$  | 15) $9 + (-7) + (-20) =$ |
| 16) $7 + (-10) + 17 =$ | 17) $(-12) + (-4) + 8 =$ | 18) $7 + 17 + (-24) =$   |

Subtract integers. Re-write the problem as addition first.

|                         |                      |                        |
|-------------------------|----------------------|------------------------|
| 1) $1 - 2 =$            | 2) $10 - 10 =$       | 3) $7 - 17 =$          |
| 4) $(-100) - 50 =$      | 5) $(-25) - 11 =$    | 6) $(-33) - 77 =$      |
| 7) $(-1) - (-2) =$      | 8) $(-10) - (-20) =$ | 9) $(-11) - (-22) =$   |
| 10) $(-2) - (-7) - 1 =$ | 11) $1 - (-1) =$     | 12) $0 - (-7) - (3) =$ |
| 13) $2 - 5 + (-3) =$    | 14) $45 - 15 - 20 =$ | 15) $(-37) - 7 =$      |
