

Example of a Descriptive Essay

I love chocolate chip cookies! Chocolate chip cookies taste so good. They have a wonderful sweet and sugary taste to them. The chocolate taste makes me want more.

Chocolate chip cookies come in many different shapes, depending on who bakes them. They can be circles or look squiggly. They are light and dark brown. Sometimes they look black if they are burnt. If you use big chips they look chunky and bumpy, too.

The melted chips stick to your hand if you pick up the cookie when it is hot. It feels very gooey and sticky. If you have soft cookies then they feel soft. If you bake them too long they are hard and crunchy. I normally don't feel them for long because I eat them very quickly because chocolate chip cookies are ooey and gooey and wonderful!!!!!!
