

Name \_\_\_\_\_

Date \_\_\_\_\_

**How much is a Handful?**

**DIRECTIONS:**

1. Grab a handful of skittles and count them. (**DO NOT EAT THEM!!!**)

Total number of skittles in your handful = \_\_\_\_\_

2. Create a frequency table of the number of skittles in each handful in your group:

<b>Each Handful</b>	<b>TALLY</b>	<b>FREQUENCY</b>

3. Put the data from the frequency table in order, from least to greatest.

\_\_\_\_\_

4. Using the information from your group's frequency table, find the following:

**Mean-** \_\_\_\_\_

What does the mean represent? \_\_\_\_\_

**Median-** \_\_\_\_\_

What does the median represent? \_\_\_\_\_

**Mode-** \_\_\_\_\_

What does the mode represent? \_\_\_\_\_
