

Division

Did you know that division is
the inverse of multiplication?

This makes life much simpler.

If you know that $6 \times 2 = 12$ then you can make two division sentences:

$$12 \div 6 = 2 \quad \text{and} \quad 12 \div 2 = 6$$

Make two division sentences from these multiplications:

1. $5 \times 2 = 10$

$$\boxed{} + \boxed{} = \boxed{}$$

and

$$\boxed{} + \boxed{} = \boxed{}$$

2. $4 \times 3 = 12$

$$\boxed{} + \boxed{} = \boxed{}$$

and

$$\boxed{} + \boxed{} = \boxed{}$$

3. $5 \times 8 = 40$

$$\boxed{} + \boxed{} = \boxed{}$$

and

$$\boxed{} + \boxed{} = \boxed{}$$
