

## The circulatory system

### 1. Heart

Left ventricle   
 Right ventricle   
 Atrium   
 Left atrium   
 Right atrium

Pulmonary artery   
 Vein   
 Artery   
 Capillary

- 1) Left ventricle - pumps out blood to rest of body
- 2) The pulmonary artery carries oxygenated blood to lungs
- 3) Blood returns to right atrium
- 4) The pulmonary vein carries blood to heart
- 5) The oxygenated blood is pumped to the rest of the body
- 6) The blood returns to the right atrium
- 7) The blood is pumped to the lungs by the pulmonary artery
- 8) The blood is pumped to the rest of the body by the pulmonary vein
- 9) The blood returns to the right atrium
- 10) The blood is pumped to the rest of the body by the pulmonary artery
- 11) The blood returns to the right atrium

12) The blood is pumped to the rest of the body
