

Challenge: Find the pattern in each division equation.

1. $24 \div 8 = \square$

6. $48 \div 12 = \square$

2. $36 \div 6 = \square$

7. $48 \div 6 = \square$

3. $42 \div 6 = \square$

8. $27 \div 3 = \square$

4. $18 \div 9 = \square$

9. $36 \div 6 = \square$

5. $20 \div 5 = \square$

10. $32 \div 8 = \square$
