Color Theory

Practice Sheet

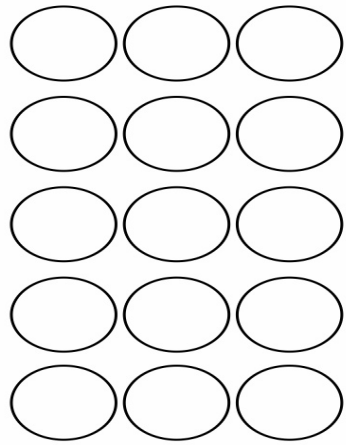

Color is an element of art.

Instruction: Use the predefined color to paint secondary and tertiary color on the color wheel and also paint the boxes according to each given statement.

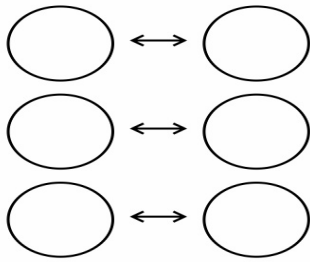

Monochromatic Color:

A color with its tints and shades.
Tints are colors mixed with white. Shade are colors mixed with black.

Complementary Color:
Colors opposite from each other on the color wheel

Analogous Color:
Colors that are neighbors on the wheel.
