

treasure Hunt

The Red Pirates landed on the southwest coast of the School of Ocean. They traveled along the shore south and turned right on the Crystal Lake. They headed east towards the Roller Mountains. When they got there, they turned left. They went straight ahead until they reached the Golden Lake. They wanted to bury the treasure there but Captain Hook didn't agree. There they turned right. They went through the Fairy Forest. They couldn't find a place to bury the treasure, so they got out of the forest and turned left again. They went straight ahead towards the Silver Lake. They went past the Lime Forest. They stopped when they got to the Hill. They climbed up the hill and found a cave on the other side of the hill. It was the perfect place to bury their treasure.
