

**DIBELS Administration - 2011-2012**

**Benchmark Administration**

- DIBELS benchmark will be assessed by trained Instructional Assistants to all students in grades K - 6
- One passage will be read by each student (see chart below)
- This one passage score will be entered into SOAR
  - An individual teacher may administer the additional passages to their students; however, the passage administered by the IA is the score that will be entered into SOAR.
- Scores must be entered into SOAR no later than a week after each benchmark window
  - Benchmark 1 – September 7 – 23; scores entered by September 30
  - Benchmark 2 – January 9 – 20; scores entered by January 27
  - Benchmark 3 – May 29 – June 8; scores entered by June 15

**Progress Monitoring Administration**

- Given monthly to students not at benchmark for WPM; Progress Monitoring for accuracy is at teacher discretion
- Progress Monitoring may be administered by teacher or Instructional Assistant; there is not a designated IA or Team to administer Progress Monitoring
- Progress Monitoring must be given at grade level if scores entered in SOAR
  - Use appropriate grade level selection through *Six Minute Solutions* to instruct between Progress Monitoring
- Scores must be entered into SOAR by the end of each month, for example: October Progress monitoring should be posted by the last school day in October and then scores will be added to SOAR by the following week.
  - All strands must have scores entered (even if you select not to re-test all strands, you must provide a score for the charts to display correctly, for example: simply add the score from the previous test for all strands passed and only rescore those strands not passed)
