

How To Draw a Gondola in Venice

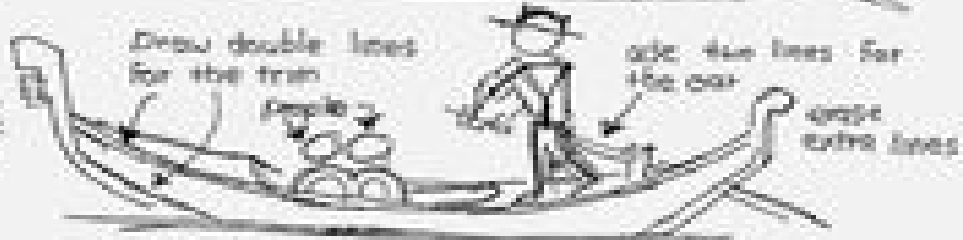

Begin with the line for the water - this helps with perspective
Use three curved lines for the basic shape
the front and back go high out of the water
the very ends go straight up. there is
a cove at the back.

Start the
man as
a stick
figure
Draw the
body around
it. Draw the
clothes last.

The front
has a shape
made out of
rectangles

Keep the people simple.
