

The CARS Checklist for Evaluating Internet Sources

You should evaluate every web site you use for research or for personal information. The CARS checklist for evaluating Internet sources is listed below. Ask yourself the following questions about each site and try to use only those that have the best evidence of credibility, accuracy, objectiveness, and support.

Website Evaluation Checklist			
Title of the website:			
URL:			
Credibility: A source that is created by a person or organization who knows the subject and who cares about its quality.	Yes	No	
<ul style="list-style-type: none">■ Is there a publishing or sponsoring organization?■ Does the individual or organization list all of their qualifications, or credentials? Are they experts in their field?■ Does the website have an .edu, .org, or .gov ending in its URL?	<input type="checkbox"/>	<input type="checkbox"/>	
Accuracy: A source with information that is current, complete, and correct.			
<ul style="list-style-type: none">■ Based on the reading you have already done on the subject does the information on the site seem accurate?■ Is the website free of spelling errors, grammatical errors, dead links, or other problems that indicate lack of quality control?	<input type="checkbox"/>	<input type="checkbox"/>	
Objectiveness: A source that is truthful and unbiased			
<ul style="list-style-type: none">■ Does the website avoid advertising that may be in conflict with the content of the website?■ If an issue is covered, are both sides presented?■ Do you trust the author or organization that has created the website?	<input type="checkbox"/>	<input type="checkbox"/>	
Supports: A source with verifiable sources of information?			
<ul style="list-style-type: none">■ Is factual information referenced in footnotes or a bibliography?	<input type="checkbox"/>	<input type="checkbox"/>
