

Birthstones

Three friends—Atticus, Susan, and Mike—are comparing their birthstones, which are garnet, ruby, and diamond. They were born in January, April, and July. Mount the clues to determine who wears each jewel.

1. Atticus' birthday comes before the girl wearing the ruby and the person born in April
2. The stone for April is a diamond.

	January	April	July	garnet	ruby	diamond
Atticus						
Susan						
Mike						
garnet						
ruby						
diamond
