

### EXERCISE 11

1. A shopkeeper had 150 lb of rice. He sold  $\frac{2}{5}$  of it and packed the remainder equally into 5 bags. Find the weight of the rice in each bag.

- 
2. Peter had 400 stamps.  $\frac{5}{8}$  of them are U.S. stamps and the rest are Canadian stamps. He gave  $\frac{1}{5}$  of the U.S. stamps to his friend. How many stamps did he have left?
