

EXERCISE 11

1. A shopkeeper had 150 lb of rice. He sold $\frac{2}{5}$ of it and packed the remainder equally into 5 bags. Find the weight of the rice in each bag.

-
2. Peter had 400 stamps. $\frac{5}{8}$ of them are U.S. stamps and the rest are Canadian stamps. He gave $\frac{1}{5}$ of the U.S. stamps to his friend. How many stamps did he have left?
