

### **Title Page Worksheet**

A Title Page for a research paper is always very simple. Here are the rules for typing a Title Page:

- Size 12 font, usually times new roman, but it must be a simple font
- Double spaced
- **NO** pictures, word art, **bolding**, *italicizing*, or underlining
- Always remember the one-third/two-thirds rule:
  - the title is approximately 1/3 of the way down the page
  - the writer's name, instructor's name, class name, & date is approximately 2/3 of the way down the page
- All words in the title must be Capitalized.

Example:
