

Border Patrol Card Puzzles

Instructions

1. Try to beat each challenge time. Fill in each cell with the value of a card from Joker through King (Joker = 0, Ace = 1, Jack = 11, Queen = 12, King = 13).
2. The cards in each row should add to the answers on the left and right. The cards in each column should add to the answers on the top and bottom. The cards in each major diagonal should also be totaled.
