

Don't Bug Beetle Boss!

Sorting objects with three different attributes

Beetle Boss is confused. He's scheduled Beetle Workers to work during the day and night and he's got them all mixed up. Boy, is he bugged! Help him figure out if each Beetle on the sides is a day worker (A) or a night worker (B).

These are the daytime Beetle Workers

A

They have 2 legs in common. Can you find them?

These are the nighttime Beetle Workers

B

How are they different from the daytime Beetle Workers?

Use the collection of mixed beans from the activity on page 4. Ask your child to sort the beans according to three attributes: color, size, shape. Instruct your little learner to take a close look before grouping the beans. Finally, guide your child to glue the sorted beans on a piece of posterboard to form a bean collage.
