

Addition - mental

Without using a pencil and paper method, work the answers out to these three number addition problems:

1.  $3 + 6 + 8 = \dots\dots\dots$       2.  $7 + 5 + 2 = \dots\dots\dots$       3.  $9 + 1 + 4 = \dots\dots\dots$

4.  $8 + 4 + 3 = \dots\dots\dots$       5.  $7 + 7 + 4 = \dots\dots\dots$       6.  $5 + 3 + 3 = \dots\dots\dots$

7.  $6 + 6 + 2 = \dots\dots\dots$       8.  $9 + 9 + 6 = \dots\dots\dots$       9.  $9 + 7 + 6 = \dots\dots\dots$

10.  $1 + 8 + 8 = \dots\dots\dots$       11.  $2 + 9 + 6 = \dots\dots\dots$       12.  $5 + 9 + 2 = \dots\dots\dots$

When adding several small numbers it is a good idea to look for pairs of numbers that make 10.

Try these:

This is easy!  
5 + 5 make 10, so  
does 4 + 6!

13.  $8 + 3 + 2 =$

14.  $6 + 9 + 4 =$

15.  $5 + 4 + 6 =$

16.  $2 + 9 + 1 =$
