

Name: _____

A Couple of Couplets

Couplets are easy to write. You just need to think of two words that rhyme, and then you can write a couplet around those two words. For example: cat and rat.

Look at that silly cat.

He spends all day chasing a rat.

How do you think of words that rhyme? Start with these words below:

Pop

Sing

Zoo

Pear

Can

Pig

Now you try it. Write a couplet on the back of this paper using two of your list words.
