For our 20th task of operations as we write the operation on any number in the unit, it is called a function

1 + 1 means 

In the use of a function, it is more to think about the operation being attached to the number what follows. This is so if the function is written with numbers going into the number and answer empty out. The number going in and the number coming out are called an input and output because they happen in a specific order

12 + 3 means
