

Name _____

Parts of a Paragraph

Identify parts of a paragraph.

Read the paragraph carefully. Underline the topic sentence and color it green. Color the supporting sentences yellow. Circle the concluding sentence and color it red.

Make Your Own Ice Cream

Did you know that you can make your own ice cream? Lots of people use a special machine, but you can make it with just a few things. You need milk, sugar, flavoring, two zip-lock bags and some ice. First, you put the milk, sugar, and flavoring into a bag and zip it up tight. Fill a larger bag with ice and rock salt and place the bag with milk inside it. Then you make sure both bags are sealed. The final step is to gently shake and massage the bag. After a few minutes you will have your very own homemade ice cream!

Write two of the supporting sentences from the paragraph below.
