

Use the prices to write addition problems. Find the sums.

a. $1 \text{ } \textcircled{\text{smiley face}} + 1 \text{ } \textcircled{\text{candy}} =$
 $\underline{8} + \underline{7} = \underline{15} \text{ cents}$

d. $1 \text{ } \textcircled{\text{swirl}} + 1 \text{ } \textcircled{\text{smiley face}} =$
 $\underline{\quad} + \underline{\quad} = \underline{\quad}$

b. $1 \text{ } \textcircled{\text{swirl}} + 1 \text{ } \textcircled{\text{flower}} =$
 $\underline{\quad} + \underline{\quad} = \underline{\quad}$

e. $1 \text{ } \textcircled{\text{candy}} + 1 \text{ } \textcircled{\text{U-cookie}} + 1 \text{ } \textcircled{\text{smiley face}} =$
 $\underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}$

c. $1 \text{ } \textcircled{\text{U-cookie}} + 1 \text{ } \textcircled{\text{candy}} =$
 $\underline{\quad} + \underline{\quad} = \underline{\quad}$

f. $1 \text{ } \textcircled{\text{flower}} + 1 \text{ } \textcircled{\text{swirl}} + 1 \text{ } \textcircled{\text{candy}} =$
 $\underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}$
