

**Personal Narrative: Biology****Observing Urban**

- Focus on specific sensory experience
- Focus on unique personal/observational perspective
- Consider specific urban landscape
- Make reference to historical background

1 10 20 30 40

**Ecological Observations**

- Includes first-hand reporting (includes urban biodiversity)
- Focus on urban landscape
- Use scientific field observation techniques
- Physically close to observation

1 10 20 30 40

**Mapping Urban**

- Urban biodiversity urban biodiversity
- Use scientific observation & research
- Urban experience, patterns, scientific method

1 10 20 30 40

**Common Observations**

- Urban landscape observation
- Urban landscape observation
- Urban landscape observation
