

Imagined...

... that St. Paul has been devastated by a natural disaster. As a result, the following has happened:

- there is no electricity
- there is no running water
- all of the hospitals are closed except one which is handling emergency care
- most of the housing has been damaged or destroyed
- railroads are closed
- the grocery stores have been stripped of food
- mail/route(s) do not work

At your table, with your partner or group, you are to play the role of the St. Paul City Council. You have to decide together what to repair or replace or rebuild first. The people are getting frustrated and want off as quickly as they can, so you need to act quickly. But in a way that will help the most people.

Your job is to decide the top 3 most important things to fix and explain your reasons for selecting the three things.

Please list the items with a explanation below.

1. _____

2. _____

3. _____
