

## Volume of a Pyramid

To find the volume of a pyramid, use the formula  $\text{Volume} = \frac{1}{3} \cdot \text{Base} \cdot \text{height}$ , where B is the area of the base and h is the height of the pyramid.

<p><b>Step #1 Find the Area of the Base</b></p> <p>If the base is a rectangle, use the formula <b><math>B = \text{length} \cdot \text{width}</math></b>.</p> <p>If the base is a triangle, use the formula <b><math>B = \frac{1}{2} \cdot b \cdot h</math></b>.</p>	<p><b>Step #2 Find the Volume of the Pyramid</b></p> <p><b><math>V = \frac{1}{3} \cdot \text{Base} \cdot \text{height of the Pyramid}</math></b></p>
---	--

Find the volume of each pyramid. Use the formula  $V = \frac{1}{3} \cdot \text{Base} \cdot \text{height}$
