

Geometry Angle and Triangle Exercises

4) Find x and $\angle ABC$

$$x =$$

$$\angle ABC =$$

5) Given: $\angle 1 = \angle 5$

$$\overline{AB} \parallel \overline{CD}$$

$$\angle 2 = 38^\circ$$

Find: $\angle 3$

6) Given: Rectangle RSTV

$$\angle RVS = x^2 + 30^\circ$$

$$\angle RSV = 6x - 12^\circ$$

Find the measure of $\angle VST$
