

**Note to adult:** Read and enjoy the book together. Talk about the activity and help your child complete the page. Close the book together again at a later time and ask your child to complete the alphabet activity on the reverse side.

Three pictures in each row begin with the same sound. One picture does not. Cross off (X) the one that does not belong.

**THINK!**  
The illustrations in this book show many things for each alphabet letter. How many things can you think that start with each letter? Try to write the same picture a lot of your home. Or, draw more pictures you find in the picture that begin with a letter.
