

Reading / Language Activity

1. The teacher will ask students to be grouped in three teams. Then she/he will give to each group one short story cut into pieces (it will be cut into pieces – separating sentences-). The students will give a logical order to the assigned story.
2. After having completed that activity. Students will paste the stories on the board.
3. One group will be assigned to find all the nouns from the three short readings; other group will look for all verbs; and the last one will search for all the adjectives from the three readings.
4. Then students will write the verbs on the board.
5. This activity will be checked along with the teacher by using a ppt to identify and underline the nouns/ verbs/ adjectives used by students to recognize which ones were not identified by students.

(After reading) Complete the following chart by identifying sentence components from the provided readings.

Nouns	Verbs	Adjectives
