

### Math Squares Worksheet 3

Complete each math square to find the missing number(s).

Rules:

1. You play diagonally.
2. Both corner numbers diagonally add to the center number.
3. The center number minus a corner number equals to the opposite number (diagonally).
4. Look at the example to the left.
5. Write down all the math facts (possibilities).

$$6 + 4 = 10$$

$$7 + 3 = 10$$

$$10 - 6 = 4$$

$$10 - 4 = 6$$

$$10 - 7 = 3$$

$$10 - 3 = 7$$
