Measuring to the nearest millimetre

Use a ruler to measure these lines to the nearest millimetre (mm)

Write the answers in centimetres and millimetres:

Eg   a. ————————————————   line a is   4cm 8mm long

1. ————————————————————————

2. ————————————————————————   3.

4. ——————————————   5. ————————————————

6. ————————

7.

8. ——————————————————

9. ————————————————————————

10. ————————————————————————————

Why were these difficult to measure accurately?
