

Use number operations together on the number line of the first number and then move left for subtraction and right for addition.

Fig. 18-4  $2 + 3 = 5$  and  $5 - 3 = 2$

1.  $2 + 3 = 5$  and  $5 - 3 = 2$

2.  $12 + 4 = 16$  and  $16 - 4 = 12$

3.  $18 + 5 = 23$  and  $23 - 5 = 18$

4.  $10 + 6 = 16$  and  $16 - 6 = 10$

5.  $1.2 + 0.2 = 1.4$  and  $1.4 - 0.2 = 1.2$
