

Volume of a Pyramid

To find the volume of a pyramid, use the formula $\text{Volume} = \frac{1}{3} \cdot \text{Base} \cdot \text{height}$, where B is the area of the base and h is the height of the pyramid.

<p>Step #1 Find the Area of the Base If the base is a rectangle, use the formula $B = \text{length} \cdot \text{width}$. If the base is a triangle, use the formula $B = \frac{1}{2} \cdot b \cdot h$.</p>	<p>Step #2 Find the Volume of the Pyramid $V = \frac{1}{3} \cdot \text{Base} \cdot \text{height of the Pyramid}$</p>
---	---

Find the volume of each pyramid. Use the formula $V = \frac{1}{3} \cdot \text{Base} \cdot \text{height}$

A.

V = _____

B.

V = _____

C.

V = _____

D.

V = _____

E.

V = _____

F.

V = _____

G.

V = _____

H.

V = _____
