

Name_____ **Fraction, Decimal, Percent --- Calculation Worksheet**

As your Math class is surveyed, record the information gathered about the number of students with each physical characteristics (gender, height, eye color, hair color, and shoe size) in the below charts. Use the workspace below to perform the calculations needed to determine a fraction, decimal, and percent for each characteristic. **Show all work.**

Total number of students in your class: _____

Characteristic: Gender

Female	Number of Students	Fraction	Decimal	Percent
Male	Number of Students	Fraction	Decimal	Percent

Characteristic: Height

Range	Number of Students	Fraction	Decimal	Percent
Range	Number of Students	Fraction	Decimal	Percent
Range	Number of Students	Fraction	Decimal	Percent
Range	Number of Students	Fraction	Decimal	Percent
