

BOO AT THE ZOO
A HALLOWEEN CROSSWORD

Across

1. Only one species of these furry, flying mammals actually drinks blood
4. This large spotted cat is an expert at stalking its prey
6. Howling at the moon is how this canine communicates with its pack
8. Eight hairy legs and two large fangs make this arachnid super spooky
9. This scavenger soars in circles to find its food

Down

2. False myths say this bumpy cousin to frogs will give you warts
3. This masked mammal can be seen foraging for food in the dark of night
5. This reptile slithers on the ground
7. The only time you can hear this quiet hunter is when it hoots
