

### Multiplying by 10 and 100

Remember – to multiply by 10 just move each digit one place to the left and the zeroes to replace the numbers it brought.

To multiply by 100 move each digit two places to the left.

Complete these written equations:

$10 \times 20 = 100 = \boxed{\phantom{000}}$

$10 \times 30 = 100 = \boxed{\phantom{000}}$

$10 \times 70 = 100 = \boxed{\phantom{000}}$

$10 \times 27 = 1000 = \boxed{\phantom{0000}}$

$10 \times 20 = 1000 = \boxed{\phantom{0000}}$

$10 \times 70 = 1000 = \boxed{\phantom{0000}}$

$10 \times 400 = 500 = \boxed{\phantom{000}}$

$10 \times 100 = 100 = \boxed{\phantom{000}}$

$10 \times 400 = 100 = \boxed{\phantom{000}}$

$10 \times 500 = 500 = \boxed{\phantom{000}}$

$10 \times 100 = 1000 = \boxed{\phantom{0000}}$

$10 \times 50 = 5000 = \boxed{\phantom{00000}}$

$10 \times 500 = 1000 = \boxed{\phantom{0000}}$

$10 \times 700 = 1000 = \boxed{\phantom{0000}}$

$10 \times 500 = 500 = \boxed{\phantom{000}}$

$10 \times 400 = 500 = \boxed{\phantom{000}}$

$10 \times 500 = 500 = \boxed{\phantom{000}}$

$10 \times 500 = 500 = \boxed{\phantom{000}}$
