

# Self Regulation

## What is self regulation?

Self regulation is the ability to flexibly respond to situations, situations and distress use calm appropriate responses. They're asked, it is the ability to control emotions, thinking, behavior and actions in order to meet a situation.

In addition, self regulation refers to just the other developmental processes. Children get their own and learn to think before they act.

## Why is it important?

Research indicates that self regulation is critical to a predictor of academic success. Children with higher levels of self regulation score better on higher academic reading, vocabulary and math. In addition, good executive function that the ability to young children to self regulate is associated with higher, higher academic scores.

## How can you help a child develop self regulation?

Here are some suggestions to help you help your child develop self regulation skills:

- Teach self regulation at a young age. Children develop the foundation skills for self regulation from before 3 years old.
  - Use self-regulation strategies to help children. Use self-regulation strategies to help children who have difficulties with self-regulation. Partner with children who have self-regulation skills with children who do not have self-regulation skills to help them learn.
  - Help children to regulate. Build awareness by teaching them self-regulation and for parents to provide self-regulation strategies of a consistent or physical activity.
  - Provide verbal or physical cues to help children to self-regulate. Use words to teach the "stop" strategy of self-regulation to help children to regulate.
  - Consistently monitor children to determine when self-regulation can be introduced and when the children can learn to be independent to their regulation.
  - Use games to help regulate. Use self-regulation strategies like Light + Green Light, Freeze Dance, Simon Says, etc.
  - Participate in other activities where the child needs to move to the center.
  - Use eye games that require self-regulation.
